

Model 1058/1158
Direct Connection Weighbridge Loadcell Amplifier(s)

- SYSTEMS integral totalizer comes with equipment mounted, high precision, loadcell pre-amplifier & SYSTEMS' proprietary *Lightning Quick Disconnect*.
- Loadcell, loadcell amplifier, and belt scale speed pickup are automatically disconnected electrically from the control center when equipment powered off.
- This disconnect protects against lightning induced transients of up to 1500 volts.

Products are sold subject to SYSTEM Equipment's current Warranty, Terms & Conditions.
